List of Figures

1.1	This is a figure.	2
2.1	This is another figure.	3

List of Tables

1.1	This is a table.....	1
-----	----------------------	---

Chapter 1

A Chapter

This is an example chapter. This generates two example citations: [AA00] and [Las76].

1.1 An example section

Sections and subsections are put into the table of contents in a nice way.

1.2 Another example section

Example	Table	(with headers)
Row 1	some entry	This table has three columns, as specified in when the tabular environment is declared. The first column is left-aligned and is followed by a vertical line; the second column is centered, and the last column is a 3 inch wide paragraph (which will wrap lines).
Row 2	another entry	
Row 3	a third entry	Note that not every cell must contain data.

Table 1.1: This is a table.

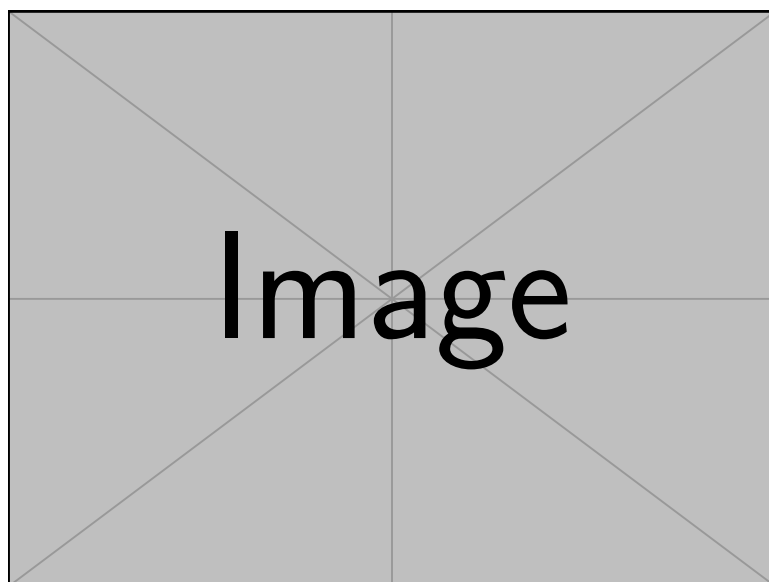

Figure 1.1: This is a figure.

Chapter 2

Another Chapter

2.1 Example section

Example subsection

Here is an example subsection. Subsections are also listed in the table of contents. This behaviour (as well as how numbers are displayed) may be changed by changing the `tocdepth` and `secnumdepth` parameters.

Figure 2.1: This is another figure.
